

# Emerald Dog Obedience

Club is proud to host:

Patty Biggins

“The Training Game”  
Competitive Obedience Seminar

**November 10&11 2018**

*“I believe training is a game, with rules and goals. Once you and your dog understand both, you will increase your teamwork and enjoyment of your time together.”* Patty Biggins

Patty is a long time exhibitor, trainer and teacher of competitive obedience. All of her personal dogs and many of her students dogs have been ranked nationally. She has earned many High in Trials as well as multiple High Combined awards, as have her students. While she started with Siberian Huskies, she quickly moved to Belgian Tervuren, a breed she remains with to this day. Furthermore, Patty’s students have given her the experience of training breeds from every AKC recognized groups. Her own dogs compete in multiple venues where they have achieved top titles and she understands the challenges this presents. Her goal is for every team to achieve attitude and accuracy. Since each dog is an individual, this goal is best achieved when the owner learns to understand their dog and to constantly adjust their training to the needs of their partner.
